

SAFETYLINK
FASTFIT
Ladder Support Grab Rails

A permanent system that provides safe and easy & safe access to elevated areas.

Designed to be fixed to a known access location to assist with safe access to the roof.

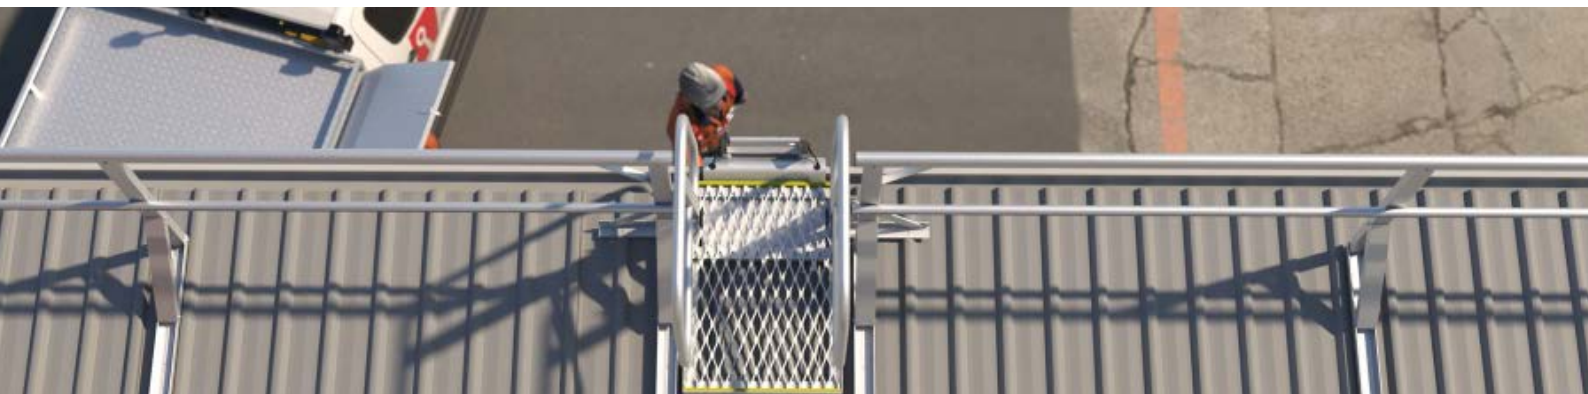

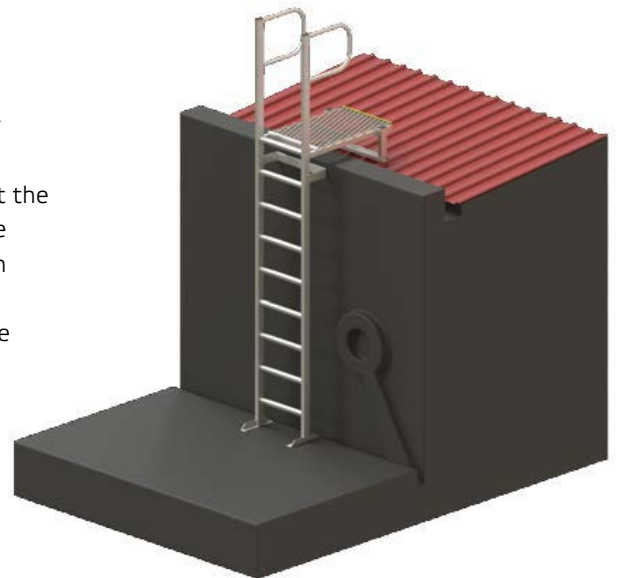

HOW IT IS USED

The FastFit Ladder Support Grab Rails are permanently fixed to the roof and provide the user with a secure ladder dock with permanent safety handrails.

HOW IT WORKS

By having a permanent ladder dock the user can secure a portable ladder and safely exit the top of the ladder and onto the roof using the handrails. When exiting the roof, the user has solid handrails to help with the transition onto the ladder.

PERFORMANCE

Safetylink FastFit Ladder Support Grab Rails conform to AS 1657:2015.

INSTALLATION

Installation should be carried out by Manufacturer trained installers who have completed the required training modules and hold the relevant training certificates.

MAINTENANCE

Visual inspection for any damage or loose fixings must be done periodically and prior to installation. No certified maintenance required. Basic wear and tear preventative maintenance is recommended as per manufacturer's specifications and recommendations.

WARRANTY

Warranty for 10 years and 2 years installation.

ENVIRONMENTAL

PBI Height Safety is committed to reducing its impact on the environment.

We will strive to improve our environmental performance over time and to initiate additional projects and activities that will further reduce our impacts on the environment.

Our commitment to the environment extends to our customers, our staff, and the community in which we operate. We are committed to supplying products with primary components made of recyclable material and is supplied with minimum packaging to retain its structure and integrity during transit.

We will continually measure our environmental impacts and aim to reduce these.
